

NOTIFICATION

“MICROSITE ON EVIDENCES OF ASSESSMENT”

CBSE has initiated the process of collecting and analysing evidences of assessment for Term-I, April, 2013 to September, 2014. The schools have been sending the required evidences to the respective Nodal centres for analysis work. In order to provide schools with updated information on the status of their evidences and to provide timely support and guidance to the schools, a microsite has been created on the Evidences of Assessment and the online updation facility has also been modified.

The schools selected for sending Term-I evidences are requested to click on the following link: <http://49.50.126.244/eoa/index.asp> and follow the instructions (**Annexure I**) to know the status of their evidences. The schools are provided the facility to download their feedback reports, send their queries/complaints, best practices and the compliance reports through this online system.

The schools are further informed that the work of online updation by the Nodal Centres is still in process and is expected to be completed by 15th December, 2013. In case you find that your status still shows that your evidences have not yet been received, then you may contact the Nodal Centre and also submit your queries/complaints through the online system.
